Organizational Science Current Topics
OSCI 8001 001
Fall 2014
M 11:00 AM-12:15 PM; Cone 112

Facilitators:	Enrica Ruggs	Shawn Long	**The Crew:**	Bob Bickmeier	Haley Myers
Email:	eruggs@uncc.edu	Shawn.Long@uncc.edu		Leann Caudill	Sabrina Speights
Office Hours:	By appointment	By appointment		Andy Loignon	

Course Overview:
New and innovative research and practice topics related to Organizational Science will be discussed, delivered, and/or facilitated by student researchers, faculty and invited speakers. These "cutting edge" topics will span all of micro and macro organizational science and will change each semester. Grading is based on Pass/Fail credit. Current Topics may be repeated for credit *(Fall, Spring)*. Full graduate standing in the Organizational Science Ph.D. program or consent of the instructor is needed to enroll.

Key Topics

Date	Session	Details
1/26	Practice Session: OS consulting across the disciplines	This session will start with a brief introduction of the Organizational Science Consulting & Research (OSC&R) program. We will then have a discussion on how scholars from the different OS disciplines would approach an actual OS consulting project submitted to OSC&R.
2/16	Research Session: Student Research	Our very own OS students are invited to present their research. This session is designed to allow students to practice conference presentations and share current research with the broader OS community.
3/9	Integrating OS and Public Policy	This session will bring together the OS and Public Policy programs to discuss the overlaps across the two fields.
3/30	OS Research Session: Faculty Research	Some of our very own OS faculty will present their research. This session is designed to share the scholarly work going on in our program with the broader OS community.
4/13	Hot Topics	During this session, we will have a theoretically informed discussion on recent events and hot topics. This session is designed to harness the power of OS by comprehensively discussing and developing research questions around these events from an interdisciplinary perspective.

Additional Information:
1. The OS listserv will be used to communicate key information and scheduling notes. Readings are distributed through the OS listserv as relevant.
2. Arrive to class on time and prepared.
3. You are bound by the Code of Student Academic Integrity. Violations of academic integrity will not be tolerated in this course. The following conduct is prohibited: cheating, fabrication and falsification, multiple submission, plagiarism, abuse of academic materials, and complicity in academic dishonesty. You are advised to consult the full explanation of these policies in the UNC Charlotte Code of Student Academic Integrity (http://legal.uncc.edu/policies/up-407).
